---

## TECHNICAL SKILLS

---

**Languages** : Python, HTML, CSS, MERN Stack

**Frameworks** : tkinter,Express.js

**Dev Tools** : Visual Studio Code, Git, Github

---

## PROJECTS

---

### Project: My Zone | MERN Stack E-commerce Platform

- Developed a full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js, and Node.js), ensuring a responsive user interface for an engaging shopping experience across various devices
- Constructed both the front-end client and an administrative panel with features for comprehensive product management and order fulfillment.
- Utilized the Express.js framework and MongoDB for backend services, focusing on efficient data handling, storage, and retrieval to enable robust user and product data management.

### Project:Text Editor | Python Project

- Designed and developed a clean and modern software using **Python**
- Designed and implemented a lightweight text editor with a clean and intuitive user interface
- Developed a custom text editor in Python, incorporating syntax highlighting and efficient file handling

---
